

IMPLEMENT ANY DESIGN

P.E.A.R. PROCESS

by Heather Jo Flores

P.E.A.R. helps you get the job done:

- Fewer meetings
- Actionable solutions
- Works with any size project
- Promotes shared leadership

START WITH
S.M.A.R.T.E.R.
GOALS

PLACEMENT + EVENTS
ACTION + RELATIONSHIPS

Plan your project based on where you are and where you will place yourself, others, and resources.

Focus on the events that need to occur. Create a list of tasks, identify milestones, and develop a timeline.

Do the work. Assign tasks based on skills and affinity, then follow through.

Choose clear roles, establish a healthy rapport, provide results and rewards, then rinse and repeat...

Sort large projects into bite-sized chunks, based on where and when they will occur and who will be working on that aspect of the project. Use the P.E.A.R. Process for each phase. It's a cycle!
